Address: No 7, Oluyombo Street, Ikosi Road, Ketu, Lagos

## PERSONAL PROFILE

A spatial data scientist, with robust problem solving skills and hands-on experience in QGIS, python , SQL, Javascript, data collection, data cleaning, visualisation and analysis.

## AREAS OF EXPERTISE

- Hands-on QGIS experience
- Hands-on Python experience
- Automating GIS processes with python
- QGIS plugin development with python
- SQL experience
- Microsoft Office, Excel, Powerpoint
- Working knowledge of Javascript

## OTHER SKILLS

- The ability to analyze complex technical information
- Automate data collection from servers, websites using python
- Detail oriented
- Excellent problem solver

## WORK EXPERIENCE

### MACHINE LEARNING INTERN

Rural Famers Hub | 2020 – Present
- Scrapping and wrangling of geospatial data
- Image Processing and analysis with python
- Predictive model for crop yield and rainfall prediction

### DATA SCIENCE INTERN

Hash Analytics | 2020
- Data collection
- Data Analysis with Microsoft excel and python
- Data Presentation with Powerpoint

### FREELANCE GEO SPATIAL DATA ANALYST

Fiverr.com | 2019 – Present
- Theumatic maps using QGIS
- QGIS automation and Plugins
- Data scrapping and Wrangling

## EDUCATION HISTORY

### UNIVERSITY OF LAGOS
Master in Geographic Information System, 2020
- Taking up specialisation classes on data science to broaden my skill set
- Image Processing and Remote Sensing

### OBAFEMI AWOLOWO UNIVERSITY
Bachelor of science in Urban and Regional Planning, 2015
- Second class (upper division)
- Member, Town Planning Registration Council of Nigeria (TOPREC) No: 4610
